**ROLL-UP DOORS, INC.**

January 2010

Lawrence Roll-Up Doors, Inc. has announced its acquisition of select AlumaTek assets. This acquisition provides a compliment to the comprehensive line of Lawrence rolling door and grille products by facilitating an expansion of the product line to now include a proven design of side-folding closure products.

Initial plans are for the glazed and perforated rolling products to be integrated into the existing line of Lawrence grilles as two new model offerings.

Lawrence also intends to continue to produce the AlumaTek side-folding products, including glazed, perforated, solid and open panel designs, as well as the traditional "rod & link" grille.
