

LAWRENCE DOORS

WE DO MORE THAN JUST DOORS...

Celebrating our centennial in 2025, Lawrence Doors has been at the forefront of crafting innovative and reliable rolling doors and grilles, side folding closures, and folding gates. Our commitment to meticulous design and superior quality ensures that every product not only meets but exceeds industry standards. Discover the legacy of excellence that defines us and experience the unparalleled craftsmanship we proudly stand behind.

WITH SEVERAL PRODUCT CHOICES...

SERVICE DOORS

Discover our extensive range of service doors, each crafted to seamlessly meet the unique demands of any commercial or industrial environment, ensuring your space is both functional and secure.

COUNTER SERVICE DOORS

Designed for smaller openings, our CD Counter Door offers the same exceptional features and benefits as our service doors, all within a compact, space-saving design.

**Stainless Steel Frame Shown By Others*

ROLLING GRILLES AND CLOSURES

Available as a standard duty format for typical shopping mall and storefront installations and as a heavy duty format for higher usage applications such as parking structures.

SIDE FOLDING CLOSURES

The F Series Side Folding Closures provide a compact and efficient security solution, perfect for spaces with limited headroom like kiosks, parcel shipping stores, and mall storefronts.

FIRE DOORS

Our fire doors effectively combine cutting-edge design features with specialized construction for ultimate fire protection. Engineered to provide state of the art safety, they ensure reliable performance and peace of mind.

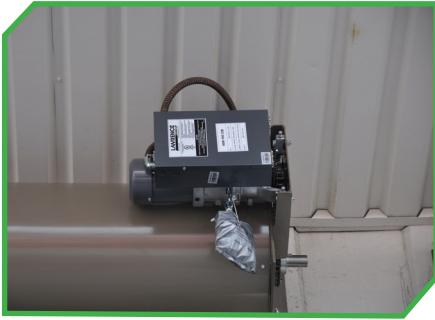

COUNTER FIRE DOORS

Compact but ready to close on command. Our CL Counter Fire Doors fits seamlessly into tight spaces without compromising safety. A combination of convenience and top-tier protection ensuring you peace of mind in critical situations.

...WE HAVE A SOLUTION FOR YOUR PROJECT!

AUTOMATION

A variety of motor operators are available to optimize the efficiency of our rolling door and grille products. A full line of controls and accessories can ensure both safety and convenience.

FIRE DOOR RETROFIT OPERATORS

Our Retrofit Fire Door Operators bring cutting-edge technology to existing fire doors, allowing older doors to be easily tested, reset, and operated with reliable precision. These retrofits represent the most advanced fire door systems available today.

HIGH PERFORMANCE DOORS *

The Model PD represents the pinnacle of high performance, speed, and durability—a door engineered to stand the test of time!

HIGH PERFORMANCE GRILLES *

Designed for heavy use, the Model PG stands out with its exceptional operating speed, unmatched durability, and long-lasting performance.

TightCoil™ HIGH PERFORMANCE GRILLES *

The Model PT delivers the perfect balance of high performance and low headroom, expertly designed to fit spaces with as little as 12 inches of total clearance.

Gateway™ EGRESS DOORS & GRILLES

Gateway™ Egress Doors & Grilles offer a sophisticated code-compliant solution for controlled egress and secure access in interior openings, storefronts, parking garages, and a variety of commercial applications.

**Lawrence high performance products are designed for 500,000 cycles usage with an average operating speed of up to 24 inches per second to open and 12" per second to close.*

ADDITIONAL PRODUCTS AND SERVICES

FOLDING GATES

This product is available in double channel or single channel construction and these gates can operate either as single sliding or in a bi-parting configuration. These gates also glide easily on floor casters or within fixed tracks. We also have some models available as a portable gate for added stability.

CHAIN GATES

These gates are fabricated as horizontal and vertical rows of interconnected chain links in a square pattern suspended from a top track. With two different models, they can be used on truck bodies (specifically the cargo hold area of box trucks) and can also provide access control to buildings as well.

SPECIAL PROJECTS

Renowned for our specialty work, we excel in crafting custom door products tailored to your unique application needs. From oversized and inverted doors or grilles to those designed for special environments, we deliver solutions that fit. Reach out to our customer service for more details.
